WHO are we?

We are a team of dynamic Chartered Accountants dedicated with 100% commitment to cater to a much needed niche with the combination of professional skills of our team together with unparalleled experience in tax laws and practices. We guarantee our clients a very high level of specialization in all aspects of tax services.

www.taxadvisor.lk provides a platform to quench your thirst of tax-related queries with professionally qualified Chartered Accountants.

Board of Directors are members of the Institute of Chartered Accountants of Sri Lanka.

" OUR VISION

Be the most accurate and prompt tax service provider in Sri Lanka "

" OUR MISSION

1. Use latest technology to deliver all tax related services
2. Use E documents and save our planet
3. Provide preferential services to low-income customers, disadvantaged groups, or organizations that prioritize people and the planet.
4. Conduct preferential education programmes to students who are following tax related courses.

Message from CEO

We at Online Tax Advisor (Pvt) Ltd assure you the highest level of professional service at all the times with an online platform, regardless of the geographical location, to create a new avenue to solve matters related to taxation instantly. The experience & exposure of our panel of Chartered Accountants are our strength which helps us to give you the best we have or we can do.

Our web site will provide you instant tax solutions under one roof in order to make firm decisions which will eventually be favorable to your business. Department of Inland Revenue has introduced RAMIS for the web of taxes consisting of direct taxes and indirect taxes where tax payers are expected to shift to submitting tax returns via digital solutions instead of manually filing returns.

Further, we believe the “Tax Alert” introduced by the company would be an added benefit to all the tax payers to keep themselves updated with the latest tax changes with a simple SMS.

As a company, we are extremely proud to be the first in Sri Lanka to implement an online tax advisory portal as the world is now driven with innovative thinking and advanced technology.
